# F4a · Segmentation and household selection

Form ID mp_ndd_ces_f4
Version 2026110501
Paper back-up of the ODK form

Use only if the phone fails. Enter the same answers in ODK Collect later the same day, then write “Entered” and your initials here: _____
Circle one code for ○, tick all that apply for □. “Ask if” shows when a question applies.

| No. | Question | Response |
|---|---|---|
| 1 | District | ○ **434** Ratlam<br>○ **455** Chhindwara<br>○ **460** Shahdol<br>○ **466** Khandwa |
| 2 | Team number (from your team code, e.g. ratlam01 = team 1) | ☐☐ |
| 3 | Block | ○ **98** Jaora<br>○ **100** Sailana<br>○ **102** Ratlam<br>○ **238** Tamia<br>○ **241** Chaurai<br>○ **244** Mohkhed<br>○ **276** Beohari<br>○ **278** Sohagpur<br>○ **280** Burhar<br>○ **307** Khalwa<br>○ **309** Khandwa<br>○ **311** Pandhana |
| 4 | Cluster (village or ward) | ☐☐☐☐ code from the cluster list |
| 5 | Name of the village or ward as known locally (list says: ____) | _____ |

## Segmentation

| No. | Question | Response |
|---|---|---|
| | *Cluster ____: ____. Census 2011: ____ households. ____* | |
| | *SMALL UNIT: fewer than 38 households on the 2011 count. Survey every household. If the list gives fewer than 38 households, add the nearest village or ward as the SOP says and record it below.*<br>*If: small unit (1 = yes) = 1* | |
| 6 | Village or ward added to complete the cluster (write "none" if not needed)<br>*Ask if: small unit (1 = yes) = 1* | _____ |

## Step 1: divide the large unit into parts

*Only if: parts planned > 1*

| No. | Question | Response |
|---|---|---|
| 7 | Parts made (plan: ____) | ☐☐ |
| 8 | Parts differ from the plan. Reason, and nodal officer who agreed<br>*Ask if: 7 ≠ parts planned* | _____ |
| 9 | Part selected randomly (number on the slip picked by the guide) | ☐☐ |
| 10 | Estimated households in the selected part (quick count with the ASHA or AWW) | ☐☐ |
| 11 | Photo of the sketch with parts numbered and the selected part marked | [photo on device] |
| 12 | Step 2: how many segments did you make (in the selected part, if a large unit)? (plan: ____)<br>On the sketch map, divide the village or ward (in the selected part, if a large unit) into the planned number of segments, each with roughly the same number of households. Use boundaries you can see on the ground (roads, lanes, nalas, field edges). Every household must fall in exactly one segment, with no gaps and no hamlet left out. Number the segments on the map. | ☐☐ |
| | *WARNING: segments made differ from the plan. The number of segments must never change. Stop and call the supervisor.*<br>*If: 12 ≠ segments planned* | |

| No. | Question | Response |
|---|---|---|
| **13** | Reason, and nodal officer who agreed<br>*Ask if: 12 ≠ segments planned* | _____ |
| **14** | Step 3: segment selected randomly (number on the slip picked by the guide)<br>Write the segment numbers on slips, fold them, and ask the guide to pick one. This is the only segment you survey. | ☐☐ |
| | *Segment factor for weighting: ____ part(s) × ____ segments = ____.* | |
| **15** | Photo of the sketch map: segments numbered, the selected segment marked | [photo on device] |

## Household selection

| No. | Question | Response |
|---|---|---|
| **16** | List used (coin toss: heads A, tails B) | ○ **A** List A<br>○ **B** List B |
| **17** | Households numbered in the segment (count households, not buildings) | ☐☐ |
| | *Households on List ____ up to ____: about ____. Visit all of them; the result codes in F4b should add up to this number.* | |
| | *Now number the households and visit every household on List ____. Fill F4b (cluster closing) at the end of the cluster.* | |
